

The Leading Model for Guiding Policy with Economic and Fiscal Impacts

Tax-PI is the only widely-available model that shows both the **dynamic economic** and **fiscal** effects of policies. Decision-makers rely on Tax-PI to demonstrate the economic and fiscal impacts of policy on local and state budgets. As a result, Tax-PI informs and guides policy decisions based on their economic and fiscal impact, such as:

- ✓ State and Local Tax Changes
- ✓ State and Local Fiscal Budgets
- ✓ Education and Infrastructure Investments

Regional Economic Models, Inc. (REMI) was founded in 1980 on a transformative idea: government decision-makers should test the economic effects of their policies before they're implemented. Our experience and development efforts have resulted in a comprehensive model that answers "what if...?" questions about your economy.

what does REMI say?

Meet the corporations that trust REMI's peer reviewed software for their policy modeling needs:

- Washington State Legislature
- Alaska Department of Revenue
- New York State Division of the Budget
- National Education Association
- Louisiana Department of Revenue
- Illinois Department of Commerce
- Texas Legislative Budget Board
- Massachusetts Department of Revenue

REMI users trust the credible analysis of the economic and fiscal impacts to their economy using Tax-PI to validate local, state, and regional policy changes.

Dynamic Evaluations

The credible economic and fiscal impacts producing using Tax-PI gives decision-makers the confidence to enact state, local, and regional policies.

Customized Models

Every model is custom-made and fully equipped with the complete inter-industry relationships found within your local, state, and regional economies.

Intuitive Software

Tax-PI is a desktop application with extensive user service and support functions, offering unlimited assistance and training from REMI.
