

## Economic Policy Consulting and Advising

Our economic consulting services include a range of support options that empower you to make informed decisions and minimize risk supported by dynamic economic modeling. Our experienced team of economists will cater to your forecasting needs and deliver a comprehensive analysis on your economy.

Regional Economic Models, Inc. (REMI) was founded in 1980 on a transformative idea: government decision-makers should test the economic effects of their policies before they're implemented. Our experience and development efforts have resulted in a comprehensive model that answers "what if...?" questions about your economy.

### *what does REMI say?*

Our consulting services can address a wide range of economic interests and policy areas including:

- Economic Development and Trade
- Energy and Environment
- Housing and Community Development
- Taxation, Revenue and Budget
- Transportation and Infrastructure
- Labor and Workforce Development
- Immigration, Healthcare, and Social Services

REMI's consulting clients will have access to state-of-the-art modeling approaches offered through a range of customizable consulting service options that effectively support their modeling needs.

#### Evaluate

Our consulting experts employ REMI's peer reviewed methodology to perform dynamic analyses and evaluate the effects of policy changes in your region.

#### Enlighten

The results of our analyses will offer valuable insights and enlighten your decision-making process, by empowering you with the critical implications of your policies, initiatives, and strategies.

#### Execute

Our consulting clients can execute informed strategies and programs that are catered to their unique region as a result of our advisement.
